

CARQUEST Vision Solution Overview

CARQUEST Vision is a powerful new Internet-based special order fulfillment system. Taking advantage of industry standards and Web services technology, **CARQUEST Vision** dramatically improves the special order process between suppliers and CARQUEST. **CARQUEST Vision** provides fast access and full visibility to supplier's inventory to over 35 CARQUEST Distribution Centers and more than 3,000 CARQUEST Auto Parts stores. Customers can also access detailed part availability, place orders, and view order/shipment status—all in a real-time environment. Most importantly, this increased efficiency means that CARQUEST customers will experience a significant reduction in the time it takes to locate special order parts and will leave the CARQUEST store knowing that their special order part is on its way.

Customers access **CARQUEST Vision** through the Exploris Point-of-Sale system or CARQUESTLink portal. **CARQUEST Vision** delivers a consistent, high quality look and feel, and customers use one application to source special order parts—regardless of the supplier! CARQUEST communicates with suppliers using real-time Internet Parts Ordering (IPO) Web services. **CARQUEST Vision** is intuitive and easy to use.

The screenshot shows the 'Create Order' step of the CARQUEST Vision interface. At the top, there's a navigation bar with the CARQUEST VISION logo, the location 'Raleigh CARQUEST Distribution Center', and a 'Return to CARQUESTLink' button. Below this is a progress bar with four steps: 'Create Order' (active), 'Enter Shipping Info', 'Check Availability', and 'Confirm Order'. The main content area is titled 'Create Order' and displays store information: 'Store: 1127 CQ OF RAL-MILLBROOK RD. NC (Change Store)', 'Location: RALEIGH, NC', 'Customer Number: 177200', and 'Store Key: 2856'. Below this, there's a prompt: 'Enter Manufacturer's Code and part number for each part. View a list of codes and part numbers from the [lookup](#).' This is followed by a table with columns for MANU Code, Part Number, and Quantity. The table contains several rows with pre-filled data and 'lookup' links. At the bottom, there are buttons for 'Overnight Order', 'Cancel', and 'Locate Parts'.

MANU Code	Part Number	Quantity	MANU Code	Part Number	Quantity
HHC	lookup 78587	1		lookup	
BBO	lookup 501016	1		lookup	
BDR	lookup 5432	1		lookup	
PC	lookup 41466	1		lookup	
NWP	lookup 4050	1		lookup	
	lookup			lookup	
	lookup			lookup	
	lookup			lookup	
	lookup			lookup	
	lookup			lookup	

CARQUEST Vision provides a self-service, on-demand tool for CARQUEST customers. CARQUEST is leveraging technology to promote 100% electronic business, while supporting a consistent, positive CARQUEST brand experience.

CARQUEST Vision Benefits

Increased Sales: Improved customer service and increased sales revenue by providing real-time inventory, pricing and shipping costs to customers at the point of sale.

Reduced Cost: Significant cost savings to suppliers through streamlined order fulfillment and management processes.

Reduced Returns: Access to high quality part information ensures that customers order the right part the first time.
